Is goed... dit betreft trouwens alleen het ketelhuis en de machinekal. De ROI is hier buiten gehouden.

De validatie heeft betrekking op bron 3 en is bedoeld als extra onderbouwing van de door Van Santen nog definitief te bepalen risicoklasse mbt bron 3

Good afternoon [redacted]

By way of an update it has taken Van Santen a little longer than anticipated to review and amend their report, I am assured that we will receive it tomorrow.

With this in mind we are going to reschedule the validation to next Tuesday (1st June 2021), subject to your review and comments.

Regards,

Good afternoon [redacted]

The offered solutions have been discussed by [redacted] and me. In the context of the agreed timeline it has our preference to study the Van Santen report on Wednesday, with the validation taking place on Thursday. If necessary, we will contact you or [redacted] on Wednesday.

Good afternoon [redacted] / [redacted],

Unfortunately Van Santen have not been able to complete their revised report today as agreed, I have asked them to confirm that it will be ready on Tuesday.

This obviously this causes us a problem with our agreed timeline for carrying out the validation on Wednesday next week, as you would have had all of Tuesday to review the report.

Having spoken to [redacted] of Future Proof, regarding his availability to carry out the validation we can offer two solutions, both depending on Van Santen completing their survey.

The first is to send you the completed Van Santen report on Tuesday afternoon and then invite you to site on Wednesday to review and discuss the relevant section of the report before proceeding with validation. This of course depends on Van Santen completing the report on time.

The second is that we delay the validation to Thursday or perhaps Friday.

I will update you with more information when I have it.

If you need to discuss any aspect of the validation then please do not hesitate to contact either myself or [redacted]

Regards,
