Onderwerp: RE: Information regarding Blowdown 3 (DeNOx)

Hoi [redacted]

Ik heb eerder vanochtend even met [redacted] gebeld om te vragen wat er nu precies speelt rondom de sloop van de DeNOx-installatie. Ik kreeg namelijk vanuit onze eigen organisatie vragen over wat bodem in hemelsnaam allemaal had geëist bij de sloop.

We willen natuurlijk voorkomen dat allerlei verhalen, vragen en antwoorden elkaar gaan kruisen en een eigen leven gaan leiden. Daarnaast zijn de eisen van Bodem niet belemmerend voor de voortgang van de sloop.

Daarom heb ik met [redacted] afgesproken dat hij de regie houdt en dat ik op dit moment (nog) niet ga reageren op de nieuwe stukken van Engie die je me stuurde. Mocht mijn inbreng toch nodig blijken te zijn dan hoor ik dat graag. In dat geval wil ik wel graag weten wat precies de vraag aan mij is.

Met vriendelijke groet,

[redacted]

adviseur bodem

Gemeente Nijmegen

Hoi [redacted]

[redacted] heeft mij gevraagd dit aan jou door te sturen.

Zou jij hier naar ons op willen reageren?

Groet [REDACTED]

Onderwerp: Information regarding Blowdown 3 (DeNOx)

Good morning [REDACTED]

Further to our recent meeting and discussions regarding the ODRN's concerns regarding the upcoming demolition of the DeNOx structure at Gelderland Power Plant please find attached relevant reports from Future Proof and Engie.

As you will see Future Proof's report concentrates on the potential effects to health whilst Engie's report focuses on the potential effects to the environment.

Both reports provide, we believe, well structured and reasoned arguments to say that demolition of the DeNOx will not adversely affect our neighbours or the environment.

When read together the two reports will, we believe, help to answer the ODRN's concerns regarding the next Blowdown.

We would welcome your feedback on the reports and would offer, should you require, a further meeting on site to discuss the way forward to a successful demolition event.

Regards,

SHEQ Director

CMIOSH MIIRSM MIDE PIEMA EuroOSHM
