

# List of requests for change AFTWA

Version 20240529

Previous version: 20240513

New / changed (in relation to previous)

	Location/item	What should be fixed	Priority	Impact work	Planning	Status
-	Taxation reports send by AFTWA not received BIJ12	<p>TODO</p> <p>Make list (overdue):</p> <ul style="list-style-type: none"> <li>- First BIJ12</li> <li>- Second check and solve AFTWA</li> </ul>	High			Now that correction work is done, BIJ12 to make the list as first step.
A.	Correction of cases: follow the plan; first contact 5.1.2e				asap	<p>Lijst 5.1.2e partly accepted, rest send to BIJ12 on 28-05-2024 (informed 5.1.2e 29-05-2024 at 8:00)</p> <p>Lijst 5.1.2e (nearly) finished</p> <p>1.2 going, see status details in mail 13-05-2024</p>
B.	Bug in AFTWA When filled in manually prices for 'onbekend dier' or when filled in manually for other animals. This disappears and is not saved;	5.1.2e wil give session to reproduce			asap	Trying to reproduce in Test
C.	Taxation reports not send to BIJ12 successfully	<p>To investigate and come with solution for the next cases</p> <p>*not received BIJ12 at all*:</p> <ul style="list-style-type: none"> <li>- 129515</li> <li>- 129888</li> <li>- 129571</li> </ul> <p>*received but not accepted by BIJ12 because of errors in taxation report*:</p> <ul style="list-style-type: none"> <li>- 129978</li> </ul>	High			<p>Paused Work in progress</p> <p>Later. when solution is applied, we will execute the solution for the other remaining taxation reports that fall</p>

		- 129996				under above categories
D.	<b>Layout taxation report: incl. Earnumbers</b>	Layout taxation report: -minimize pages - amounts are not shown completely -in case of a lot of earnumbers the last numbers are not shown completely on the taxation report -add photo's/attachements to taxatierapport	High			Solved  Work in progress (now paused for A & B)  For fase 1 Then we do the rest  to BIJ12
E.	<b>SMS adjustment</b>	Change of fields, regarding messages, see below the requested format  <div data-bbox="553 804 1254 940" data-label="Text"> <p>Inhoud bericht (SMS) uit AFTWA</p> <p>Taxateur 5.1.2e pakt TkW145123 op</p> <p>5.1.2e pakt Lunteren</p> <p>3 schapen</p> <p>Datum en tijd opdracht 23 feb om 13.30 uur</p> <p>Datum Tijd bezoek 23 feb om 15.00 uur</p> </div>	Middle			
D.	<b>Adjust VAX (BTW % in taxation report)</b>	Now the taxation VAX is 9% or 21%. This should for other costs be possible to be a mix (line(s) with 9% and also line(s) with 21%	High		End of Week 18	Solved  To be done Received adjusted 'berichtenboek' from BIJ12' on 14-03-2024 (versie06.24))  'Workaround' works for BIJ12.
F.	<b>Preliminary report layout</b>	Farmers want the location and the earnumbers in the 'voorlopig rapport'; Transfer the location from 'adresregel1' from berichtenboek and put it in the location; Farmers are not interested in the coordinates; They can be removed. The earnumbers are very important to farmers.	Low			
G.	<b>Assesment report/ Taxatierapport bug</b>	All fields: make all fields when you want to put a forbidden input that the field is refusing this; Example 1: when you put more characters then allowed then let it warn you not to do so etc....				

		Example 2: Field Volts in afrastering: Make it impossible to put kommas let the format be 9999; now we can put 6,4 Kvolts instead of 6400 volts; It is not refusing to put a komma.				
H.	<b>API specs (berichtenboek) check on fields</b>	Check format fields and All fields: make all fields when you want to put a forbidden input that the field is refusing this; Example 1: when you put more characters then allowed then let it warn you not to do so etc.... Example 2: Field Volts in afrastering: Make it impossible to put kommas let the format be 9999; now we can put 6,4 Kvolts instead of 6400 volts; It is not refusing to put a komma.				
	<b>Following requests for change ON HOLD</b>					
1	<b>Assesment report/ Taxatierapport bug</b>	The savefunction is sometimes not working; we don't know why; specifically the earnumbers are sometimes not saved; the assessors open the report after a while and need to type the earnumbers afresh;				
2	<b>Assesment report/ Taxatierapport bug</b>	Make the TKW number visible when working in it	Low			
4	<b>Assesment report/ Taxatierapport bug</b>	Summation of prices is failing when it is other animals then sheep; so e.g. 1 minipaard and 1 geit is not added. It is not happening a lot since most victims are sheep and that goes well.	Low			
5	<b>Assesment report/ Taxatierapport bug</b>	Date incident and date DNA taken and date visit are moving 1 day forward after we have closed the report and open it again. So 31 december close; when you open it again it is 32 december.	Low			

		This happens when the button 'genereer taxatierapport' has been pushed				
6	<b>Assesment report/ Taxatierapport bug</b>	All fields: make all fields when you want to put a forbidden input that the field is refusing this; Example 1: when you put more characters then allowed then let it warn you not to do so etc.... Example 2: Field Volts in afrastering: Make it impossible to put kommas let the format be 9999; now we can put 6,4 Kvolts instead of 6400 volts; It is not refusing to put a komma.	Low			
7	<b>Taxateursdashbo ard</b>	Investigate if we can have; 1) A LOG when a visitorsreport has been sent 2) A log when the voorlopig rapport has been sent 3) Taxatiereport should dissapear from taxateur dashboard after sending	Low			

## Completed

	Location/item	What should be fixed	Priority	Impact work	Planning	Completion week / date
17.	<b>Stability AFTWA</b>	Files (pfd's and attachemnets) via architecture change on virtual server level to aviud system fall out	High			Solved Work in progress
16.	<b>Bug in entering visit report</b>				Wk19	solved
15.	<b>VAX rate for sheep should be 9% in all cases</b>	So regardless of hobby/professional	High		asap	In Prod: 11 th of April in the evening
14.	<b>Field for 'other costs' not saved</b>	Field 'overige kosten' disappears when sent to BIJ12; As for 129178	High		asap	Not reproducible Under analysis  First reproduce in Test Environment
13.	<b>Assesment report/</b>	1 in 20 taxatiereports when sent to BIJ12 it is refusing with the	High	Medium	Week 10/11	Status fixed

	<b>Taxatierapport bug</b>	message 'attachment cannot be found code 500'. Specially, the reports from 5.1.2e After 5.1.2e removed the images, it is sending to BIJ12.				Awaiting testing of 5.1.2e reports in test environment  Fixed for all known issues
12.	<b>Visitreport layout</b>	1) Layout visitreport; make it possibly 1 page instead of 4 pages. 2) Put the location also in the visitreport together with the coordinates; get it from 'adresregel1' from the berichtenboek	Medium		Wk10	Fixed IN PROD Go Ahead from BIJ12 to put new layout in PROD  Sent reminder to BIJ12 on the March 13th No action Solved in test Awaiting approval from BIJ12; then to PROD
11.	<b>Application not stable</b>	Wednesday 21 feb: stability problems with application (restarting om application, on server and even node level): - first analysis seems to be related to more than one users that are logged in - some errors are not handled correctly by the system causing the system to go down (offline)	High	Large	Wk8/9	Status fixed No action: Monitoring  Logging is not 100%, and also still lost after server restarts.
10.	<b>Application not available / after rebooting at provider the application went out of the air</b>	31 jan same happened again, we now start working with snel.com to solve this structurally. 1) The application went out of the air after SNEL.COM did a reboot (not on regular basis); With command docker compose up client -d it has started again. Wee below Q and A with snel.com; you are welcome to approach them; we have a 24.7 stand by service with them.  2) Tuesday 15th of January the application was not available till 10.00 It then was available. It is not clear what happened.	High	Medium	Week 6	Status fixed No action: monitoring New logging in place  Status: Shut down ATTEMA Server bij snel.com is each tuesday/wednesday night For security updates
9.	<b>SMS settings/logging</b>	Extra logging implemented and user 5.1.2e deleted from the SMSlist				Completed In Prod 7 maart 2024 in the evening

8.	SMS messages too long	Should be limited to 144 characters	High			Fixed and in Prod
7.	Taxation/visit report not able to send to BIJ12	Several taxation reports are not send after validatin by 5.1.2e	High	Large	Wk8/9	Fixed, partly known errors (suggestion is to make some fields mandatory en limit some fields in no of characters  Partly solved: - wrong values at voltage (1.8 should be 1800 for example)
6.	Change SMS header (tel. nr should be sender)	 <p>+1(430)541-0867 should be "Attema Footprint"</p>	To be discussed.  Attema Footprint: low prio		Week 7	CANCELLED: BIJ12 solves this.  ON HOLD Reason: Attema Footprint suggests low prio  Check how / in case easy: change it.
5.	Assesment report/ Taxatierapport bug	FIELD 'opmerking van de veehouder' from the message bij12 is sending us should go from 191 naar 2048 (zie berichtenboek 7 augustus 2023).	High	Low	Week 4/5	Finished week 6  Changed in PROD (not tested yet/cheaked yet). Test also in Testenvironme nt (request to 5.1.2e is send)
4.	Add "paard"	Add "paard" to the AFTWA list of animals	High	Low	Week 5	Finished and in PROD: Tue 6 feb.
3.	Environments set up and corrections	<p><i>Testenvironment is successfully tested.</i> <i>TO DO: Logging system...now only up until the server works...</i></p> <p>1-Local developer environment set up 2-Test environment set up to be finished (and equalized with Prod) with adjustments (e.g. externalize the environment variables)</p>	High	High	Week 1-5	Finished

		<p>3-Prod environment improved with adjustments (see 2)</p> <p>→1-3 will make future development adjustments easier and faster to deploy.</p> <p>→ logging shuts down when system shuts down, this is corrected so we can monitor system shut down.</p>				
2	<b>SMS service TWILIO investigate alternatives</b>	<p>After investigations we stick to Twilio.</p> <p>Twilio has now been (re)installed at testenvironment. And also, logging has been installed for Twilio.</p> <p>Preferably we could have an SMS service linked to our Telephone subscription in the Netherlands;</p> <p>Work towards new Dutch provider:</p> <ul style="list-style-type: none"> <li>- <a href="http://www.smstools.nl">www.smstools.nl</a></li> </ul>	High	High	Week 4-5	Finished (wk5)
1	<b>Add SMS user</b>	<p>Add <span style="background-color: black; color: white;">512e</span> (06 number) tot SMS list</p> <p>Status</p> <ul style="list-style-type: none"> <li>- First attempt was done Saturday 6<sup>th</sup> of January</li> <li>- Reported bij BIJ12 not working at Friday 12<sup>th</sup></li> </ul> <p>At Friday 12<sup>th</sup> the 06 number is checked bij JanWillem and turns out correct.</p>	High	Medium	Week 4	Finished Week 4
