Subject: FW: Research into hybridisation of wolves in the Netherlands, request of a quotation
Received: Fri 9/22/2023 11:47:00 AM

Hello,

Please see the mail below. I am trying to get into contact with your people concerning our request. I tried to call [REDACTED] several times but cannot reach her. Maybe something went wrong. Could you please let me know if our request is still under consideration or if you decided not to make a quotation.

Met vriendelijke groet,

[REDACTED]

Onderwerp: RE: Research into hybridisation of wolves in the Netherlands, request of a quotation

Dear [REDACTED]

All is well I hope? We did not yet receive a quotation. Maybe something went wrong. Can you please call me on this?
Greetings [REDACTED]

Onderwerp: Research into hybridisation of wolves in the Netherlands, request of a quotation

Dear [REDACTED]

As discussed, the Province of Gelderland wants to have research carried out into the possible hybridisation of wolves in the Netherlands. The research question is to carry out DNA analyses and to determine whether and to what extent there is hybridization and to be able to make a statement about racial purity and origin of the wolves studied.

The research is done on tissue from wolves found dead in the Netherlands. It concerns 10 tissue samples that have been stored at Wageningen University on behalf of the provinces. The offer should describe how the research is carried out, what the costs are and the planning (we probably need some time to send the samples in a correct way).

The research is carried out at 2 different research laboratories/research institutes that are not affiliated with the CE-Wolf consortium. The results will somehow be compared and should be open for peer-review if desired.

Please send us your (digital) quotation before September 13, or let me know if you need more time or information.

Met vriendelijke groet,

[REDACTED]
